WORK EXPERIENCE

Nigeria Inter-Bank Settlement System   **Lagos, Nigeria**

Nigeria Inter-Bank Settlement System Plc (NIBSS) was incorporated in 1993 and is owned by all licensed banks in Nigeria including the Central Bank of Nigeria (CBN).

Frontend Developer   January 2020 – Current

- Created Seamless retail payments to Merchants without barriers. It is accessible to payers via mobile USSD technology which in recent times has become the most accessible channel (even without internet) for financial and non-financial transactions.
- Spearheaded with the product team to build a unit testng infrastructure for a client web applicaton, reducing the number of reported bug issues by 11% month over month.
- Developed a reliable and secure Card and Account based web payment gateway for online payments; with Real time transaction payment, merchant reporting and strict adherence to Payment Card Industry Data Security Standard (PCIDSS).
- Built and maintained in-house authentication systems which saved the employees 6 hours each month of manual labor.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines to automate build, test, and deployment processes in the cloud environment.
- Designed UIs for different applications for an Agile development team which improved the product experience by 50%. Improved the checkout experience for customers to complete payment options (Cards, Accounts and QR). The redesign supported contact-less payment in response to COVID-19 by including the newly launched QR payment functionality in Nigeria which is working perfectly by 100%. It was call NQR an indigenous QR-code-based payments and collections solution powered by NIBSS on-behalf of the Financial Services Industry in Nigeria.
- Developed a new customized login tool that reduced customer signup time by 30% and doubled the number of customers who signed up in 6 months.

JETHRO LIMITED   **United Kingdom**

We developed solutions that complement core banking solutions in the areas of Business Intelligence, Integration of CBS (Core Banking System) to peripheral systems, Electronic Notification Solutions (Statements, SMS, and email Alerts), Micro

Lenders Mobile field collections management solution, HRM Solution, Fixed Assets Solution, Automated Mobile Savings and Loans Solution, CBS Security to mention a few.

Software Developer   May 2019 – December 2019
- Produced company brochure, e-newsletter, and website, improving brand NPS by over 10 points.
- Created wireframes, storyboards, and screen flows, all the way through visual designs, working with stakeholders. Conducted usability tests with more than 200 users to better understand user behaviors and idea patterns on responsive devices and modify designs based on insights from research.
- Developed over 20 prototypes for website design & redesign based on analytics data using 100% Agile methodology.
- Revamped website flows and navigation menus, reducing the frequency of misdirected customer service queries by 30% and increasing traffic to previously neglected pages.
- Created and implemented the notification email template for the company.
- Scheduled 10+ meetings per month with clients to discuss project progress and review samples.

SOFTCOM LIMITED   Lagos, Nigeria
Softcom is a leading tech solutions company based in Lagos, Nigeria. A thinking company on a mission to connect people and businesses with meaningful innovation.

Intern   March 2018 – April 2019
- Utilized the best practices and coding standards to improve organic visitors to the company's website by 70%.
- Worked with Nigeria Government on the NPOWER initatve program to disburse money to users.
- Increased revenue for 5 local startups by 42% over the last year by developing a new application that enables them to increase their sales funnel.
- We created a convenient way to create, share and authenticate IDs. No paper, no card required just by scanning through your phone.
- We built a bank that gives everyone equal access to financial services from their mobile phone, whether they are on the internet or not and the tools to help them earn, spend, and grow their money with ease.
